

The Science Behind Fall

SATURDAY, NOVEMBER 18
9:00–10:30 AM

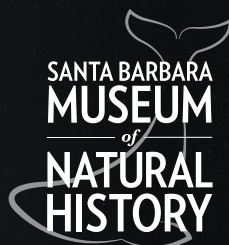

Fall is upon us and the colors of autumn have arrived. Learn the science behind why leaves turn from green to gold by creating your own leaf chromatography experiment. Observe artistic patterns in nature with our art in science leaf rubbing activity. Use the leaves as inspiration to create your own unique turkey art.

Coffee, juice, and muffins provided.

Must be a current Kids' Club Member to attend.

RSVP by November 15th: membership@sbnature2.org

To register your child for the Kids' Club call
Leana Orsua at 805-682-4711 ext. 114.
