

Dear L.B.N.H.M,

Thank you for showing us the Museum.

I learned a lot, and had a lot of fun.

I didn't know Neptune had a hurricane as well as Jupiter! And that a mother bear would fight off even her mate to save her cubs. I also learned that sunspots are cooler than other parts of the surface!

I didn't know bald eagles were so big!

I had so much fun, and I will definetly be back!

Happy Holidays!

Maile
