

WELCOME TO THE

Nature Exchange

OFFERED FROM FEBRUARY 3 THROUGHOUT 2018

Discover, Collect, Learn, Trade.

Nature Exchange is an ongoing program where guests can bring in natural objects* from their personal collections and/or found in nature. Guests share knowledge about their objects and trade them for points.

Points can be spent or saved and ultimately traded in for special objects found in our dedicated trading case.

FREE with paid admission.

Each guest can bring one natural object* discovered in nature or from their personal collection for each visit.

Points Are Awarded Based On:

- Information: what you know about the natural object.
- Uniqueness: what makes your object special?
- Quality: is the object in a clean/good condition?

What Can & Cannot Be Traded?

You can trade natural objects* like rocks, shells, pine cones and fossils. We also award points for leaving items in nature and bringing in pictures with information.

* Current wildlife regulations prohibit individuals from possessing bird bones, feathers, nests or eggs as well as marine mammal bones. Living animals, plants and cultural artifacts are also not accepted. No items are allowed from federal lands (e.g. National Parks, Forest Service and Bureau of Land Management property) as well as State Parks.
